# Ancient Rome had better sanitary facilities than parts of our cities do now.

An elderly woman carries an umbrella with her to the bathroom. There is a gaping hole in its ceiling.

This incident, and millions like it, occur daily in the country whose plumbing has been the envy of the world.

Nearly 30% of nonwhite families live in substandard housing; 15% have no hot water; 15% share bathrooms with other families; 21% have no bathtub or shower.

Together we can remake our cities. We will. We must. If you think there's nothing you can do to help, think harder.
