

Matching Action to Thoughts

BOTH FARMERS AND
THIS BANK ARE
DOING JUST THAT

If farmers were lacking in acts, or if you were lacking in foresight, and the insight into the country's needs, just imagine what a fix this country would be in.

But to the glory of the farmers stands the fact they put action behind their planning—and thoughts of progress ahead of each year's work. So the nation's greatest industry advances. We are proud of this privilege of cooperating with the farmers of this community—an honor, we feel, won by our helpful, interested understanding of their banking needs, and our ability to meet them fully.

COMPLETE OVERHAULING

Many motorists are fast learning the value of having their cars thoroughly overhauled at regular intervals.

Fewer repair bills, better mileage and longer service repay you many times the price of overhauling.

GIVE YOUR CAR NEW LIFE

Don't wait until your car stops running before putting it in the shop. The more you run it after it commences to get "balky" the more harm you are doing it, and the more it will cost to have it put in good condition again.

We can do a thorough job—and do it quickly. Now is the time.

All the wood you need is a match

Too often men-folks forget to chop the wood and keep a supply handy for your kitchen range.

You can be independent of wood. Install a Florence Oil Range. Then all the wood you'll ever need is a match to light the range.

The Florence Oil Range keeps your kitchen cooler and cleaner. It is the easiest to keep clean. It gives all the heat you'll ever need—and only when you need it. It gives long service, and will be the best-looking piece of equipment in your kitchen.

Drop in and let us tell you more about the Florence. We would like to demonstrate and explain how the heated oil vapor in the Florence delivers an intensely hot blue flame close up under the cooking.
