SOAPSUDS WILL SAVE MONEY

Using dusty and dirty lamp bulbs may add as much as 10 per cent to the amount of your lighting bills—you will use that much more current to get the light you require.

It will pay you—in money and eye health—to clean your lamps every month.

Wipe the bulbs with a soft damp cloth. Wash glass or china shades in soap and warm water.

And never use a lamp after it has become blackened by long use. Exchange it promptly for a new lamp, free.
