## COMPLETE OVERHAULING

Many motorists are fast learning the value of having their cars thoroughly overhauled at regular intervals.

Fewer repair bills, better mileage and longer service repay you many times the price of overhauling.

### GIVE YOUR CAR NEW LIFE

Don't wait until your car stops running before putting it in the shop. The more you run it after it commences to get "balky" the more harm you are doing it, and the more it will cost to have it put in good condition again.

We can do a thorough job—and do it quickly. Now is the time.

## DOINGS OF THE LEGISLATORS

(By Ed. A. Nowack)

Love pirates, chokes, vampires, male as well as female—home wreckers, heart thieves and married men and women who lavish their affection on persons to whom they are not married, would be fined \$500 or go to jail for one year or both under the terms of an anti-free love bill introduced by Rep. Callendar, Detroit. The bill is designed to materially strengthen the present law on chastity and morality.

Rep. Cora Anderson, L'Anse, would license hair dressers and all beauty specialists and create a board of examiners. Rep. Espie's bill prohibiting shipping of untested cattle into areas wherein the tuberculin test for cattle has been made, passed the house after a hot debate, the Clinton solon winning every point and passing his bill with but one dissenting vote.

Efforts to change the name of Michigan Agricultural College to Michigan State College, have been beaten, the bill being referred to the committee. A substitute is to be offered and the proposed name of the college will be Michigan State College of Agriculture, Engineering, Science and Arts. M. A. C. Appropriation bill.

Five bills, including the Espie bill, were passed by the House last week. The bills include one prohibiting hunting in Macomb county on Sunday, the pilfering of coin boxes, making additions to the curriculum of the State College of Mines, Houghton. Another bill simplifies securing of judgments under the judicature act.

Rep. Smedley, Grand Rapids, has introduced an appropriation bill asking \$25,000 for the Department of Conservation to conduct rigid stream pollution investigation work and to hire engineers and chemists. A companion bill provides strict enforcement and regulatory measures to prevent pollution.

Rep. Holland, Gogebic, would compel rights of way two rods wide to all waters upon which the public have a right to enter. Such rights of way could be procured on petition of five or more residents of a township.

Rep. McKibbin, Clare, would amend the game laws to prevent hunting with pump guns capable of shooting more than six times. Rep. Upjohn, would make it a felony to remove mortgaged autos from the counties in which the mortgage is held.

Rep. Clancy, Coldwater, would amend the inheritance tax law to relieve from taxation all property to which the state or any political subdivision or any institution of learning succeeds.

Rep. Ate Dykstra, Grand Rapids would prevent any candidate for state or county office being declared a nominee unless a majority vote of the votes cast for such office be accredited to him. Where no majority vote is cast the two high men would run it off at a second primary which shall be held one week from the first primary election. Where two or more candidates for the same state or county office are to be nominated and where the field of candidates is correspondingly increased, the same situation shall prevail.

Peeved and stinging under the constantly increasing price of gasoline, Rep. DeBoer, Grand Rapids, introduced a joint resolution proposing federal control of gasoline prices as an utter public and national safety measure.
