The Card Fan

Bishop Beauchamp said at a Nashville reception the other day: "Our church, the Methodist church, permits dancing and card playing now. Well, I suppose it had to come. The young are constantly crazy over dancing and card playing. "There's a story about a family that was crazy over card playing. The father died, and some of the relatives wanted him cremated, while others wanted him buried. The decision finally was left to the eldest son, a terrible bridge fanatic. The young man thought a while and then said: "I guess I'll make it spades."

Most headaches due to lack of internal cleanliness

WHEN you are constipated, poisons form in the accumulated food waste and are carried to all parts of the body. Headaches follow. Biliousness, insomnia, lack of energy, all result from constipation, which if unchecked will lead to serious results.

Avoid Laxatives—Say Doctors

A noted authority says that laxatives and cathartics do not overcome constipation, but by their continued use tend only to aggravate the condition.

Medical science has found in *Lubrication* a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage through and out of the body. Thus, Nujol brings internal cleanliness.

Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative, and cannot gripe. Like pure water, it is harmless.

Take Nujol regularly and adopt this habit of internal cleanliness. For sale by all druggists.

She also left a bequest of several thousand dollars to the public library without specifying the purpose for which it is to be used.

Double Protection

Two big features which mean weeks of extra wear for "U.S." Boots

Live, elastic rubber—layer on layer of reinforcements—these two features guard the life of "U.S." Boots. No more live and elastic rubber has ever been used in boot construction than that which goes into "U.S." Boots.

Andored in this rubber are tough fabric reinforcements—many as eleven separate layers of rubber and fabric, where the hard strains come. They give rugged strength to stand the hardest kind of wear.

"U.S." Boots are protected against destructive bending and wrinkling—against the knocks and strains that shorten the life of ordinary boots.

No wonder people everywhere are finding that "U.S." Boots mean longer wear! It will pay you to ask for "U.S."

Other "U.S." Rubber Footwear

You'll find every type of rubber footwear in the big "U.S." line. There's the "U.S." Walrus, the famous all-rubber overshoe—the "U.S." Ice Bootie, an all-rubber workshoe—and "U.S." Rubbers and Arctics, for every member of the family. Look for the "U.S." Trade-mark whenever you buy.
