YOUR SHOW WINDOW LIGHTING

It is not every storekeeper who realizes the true value of his
show window lighting—the drawing power and business in-
creasing effect of a skillfully lighted window.

Careful tests have shown that raising the level of illumina-
tion from 15 foot-candles to approximately 100 foot-candles pro-
duced an increase of from 48 to 78 per cent in the number of
persons stopping to view the display in the windows of the
stores selected for study.

The space occupied by the show window is so small a propor-
tion of the premises, and its importance so great, that the store-
keeper can well afford to give it all the illumination it needs.

We shall be glad to advise you on this subject. No charge
made.
