# WHERE THE MISTAKE IS MADE

Seven storekeepers out of ten—so surveys show—content  
themselves with about enough light to SEE by; the remaining  
three understand the advantage of having light enough to  
SELL by.

Experience has demonstrated beyond a doubt that sales in-  
crease with increase of lighting; and not only increase in  
quantity but in ease of making. An ill-lighted store—the great-  
er number are ill-lighted—is seriously handicapped.

You can have the advice  
of a lighting expert,  
without charge.
