## SIGNS OF SPRING—

ROBINS, MUD, MARBLES—?

(By the Press Agent)

No doubt you have all seen at least one robin this year. The mud plus marbls playing give us other signs of the approach of that time so adaptable to the rehabilitation of our respective domiciles, but there is another and greater sign of the winter solstice to the vernal equinox than all these. The Senior play looms o'er the horizon and will be with us March 25, 26—next Wednesday and Thursday.

If you want to learn how to keep millions of women now alive from never dying; if you want to know the inside stuff about modern chambers of torture; if you want to laugh loud and long with us and at us, come to the Senior play.

The plot is short and snappy and crammed with funny-bone ticklers. Mr. and Mrs. Holbrook's dash across the continent to attend the big society event of the season, breaking away from a

world tour to be present. How and why "Alicia Perks Up" is the question of the story. Be there.

## "The World's Greatest Buy"

Everyone Says It—Sales Prove It

Hudson is not called "the World's Greatest Buy" for today alone. That is acknowledgment of ten years' constant refinement of a great car around the famous patented Super-Six principle. The largest production of 6-cylinder closed cars in the world give it unequalled value advantages.

All now know that higher price can buy no smoother performance than Hudson's. It cannot buy more brilliant results in pick-up, power or speed. It cannot buy greater reliability or endurance. At today's prices need you own a lesser car? Can a costlier car satisfy you more?
