**SPRING**

Just naturally calls for an awakening and re-  
vival all along the line of human activities.

As you respond to Spring's irresistible urge  
to action, remember that there is no better time  
to put aside something for the future than in  
the Springtime—both of years and of lives.

**BUILDING?**

The most complete built exhibit in the State of  
Michigan is located at the Judson Lumber Company  
at Stark, at 4 miles east of Plymouth. It includes  
built-up specimens of every kind of lumber, finish,  
flooring, brick, hardware, shingles, mouldings, etc;  
all paneled, painted, varnished etc. You can com-  
pare the different grades, stains, colors, patterns,  
and know definitely what you would like best both  
inside and outside your home.

We have the most complete and varied stock of  
any lumber yard around Detroit giving you an as-  
surance of getting the pattern you want.

As extra points of service we have nails and  
hardware, also a complete list of plans and blue-  
prints, and detailed material list.

**NEED SHOWN FOR FOUR  
NEW COUNTY BUILDINGS**

Four humanitarian projects, all  
of which are of the utmost impor-  
tance, are involved in the three-  
quarter mill tax which will be put  
before the people of Oakland  
County at the election in April.  
They are:

The County Infirmary, or home  
for the poor.

The Tuberculosis Sanitarium.

The Juvenile detention home.

The contagious disease hospital.

Need for the four buildings  
has been urgently felt for some  
years and it was with the purpose  
of being able to provide them on a  
"pay as you go" basis that the  
building committee of the board  
of supervisors two years ago re-  
commended the plan on which  
funds have been and are being  
raised to finance them. Through  
the means adopted, of which the  
three quarter mill tax is one of  
the final steps the county will be  
able to erect these badly needed  
structures, without adding a pen-  
ny of cost for bond interest to run  
through many years and be paid  
out of taxation. The county will  
get the building at the cost of  
construction without added ex-  
pense for financing.

This plan has already been car-  
ried through two years. By it  
there has been accumulated \$98,-  
001 from fees paid into county of-  
fices. These have been set aside  
for the building fund and it is ex-  
pected \$30,000 more will accrue  
in that way this year.

In 1921 the county voted and  
paid a mill tax which raised \$189,-  
000. The three quarter mill tax  
will provide for \$160,000 more.  
These items will bring the total  
fund within \$25,000 of the amount  
needed for the buildings and that  
small amount is designed to be  
raised by a tenth of a mill tax  
in 1926.

Thus a building program which  
involves a total cost of \$522,001 is  
being financed at a minimum of  
expense to the people of the coun-  
ty, without adding a dollar for  
bonded indebtedness, charges.

Whether the structures propos-  
ed are needed can well be decided  
upon investigation of the build-  
ings now in use. Oakland county  
has been getting along with a  
makeshift home for the poor since  
the old building burned years ago.  
The quarters are crowded, uncom-  
fortable in winter and without the  
ordinary provisions made even by  
small counties for their poor. The  
new home, under contract for  
construction will correct those  
faults.

The tuberculosis sanitarium is  
converted building, crowded  
with patients, without grounds  
for ambulant patients, without  
separate quarters for advanced  
cases. Depressing indeed is this  
"sanitarium" for the patient  
whose case holds possibilities of  
cure.

The juvenile detention problem  
has always been handled in a  
makeshift manner, and without  
proper facilities. Other counties  
have far surpassed us in this re-  
spect.

As for the contagious hospital,  
it has moved from pillar to post  
as former residences have become  
available and been converted to  
this use. No one questions the  
wisdom of taking every precau-  
tion against epidemics of conta-  
gious disease—and a modern hos-  
pital, located away from the cen-  
ters of population is the logical  
answer.

All of these projects will be  
treated in detail in a later issue.

**HOUSEWORK WITHOUT LABOR.**

The modern housewife has at her command facilities for  
housework that would have seemed miraculous to the weary  
housekeeper of the last generation.

The oldtime washday with its heavy toil, with all its dis-  
turbance of domestic routine, has given way to the light and  
quickly performed work of the electric washing machine. Iron-  
ing is done with ease and promptness with the electric iron.

The hot, fatiguing and anxious work of cooking is done  
pleasantly, perfectly and confidently with the electric range.  
Dishes are washed and rooms kept clean and neat with electric  
appliances.

AND ELECTRICITY IS ONE OF THE  
CHEAPEST THINGS YOU CAN BUY.
