**AVOIDING CONGESTIONS**

During a coal shortage not long ago, which was due in a large measure to a congestion of rail traffic, it was suggested that the proper solution of the problem lay in educating the people to use coal that is produced nearest them.

Just at present the problem for solution is congestion of highway traffic, which likewise might possibly be relieved by a campaign of education.

If Detroit citizens could be induced to buy the hootch, moonshine and moon whiskey produced by its enterprising citizens instead of calling on Grand Rapids, Lansing and Saginaw for supplies, and the latter communities used their own products instead of shipping on Detroit, the number of autos, trucks and trailers passing up and down Grand River and other main highway arteries would probably be reduced by at least twenty-five per cent.

**"ABIE" IS AT THE GARRICK**

"Abie's Irish Rose," Miss Anne Nichols' \$1,000,000 play that has been aptly called the miracle of the American stage, begins its tenth week at the Garrick Theatre next Sunday. This comedy entered its fourth year in New York at the Republic Theatre on May 23, and from all reports is still holding its own. It seems scheduled for an indefinite run at the Garrick, and deservedly so, because it is ideal theatrical fare for these days and nights of high and nervous temperature. A clever mixture of humor, philosophical reflection, homely wit and satire if the kind that appeals to the Gentile as well as the Jew, with ever a laugh in the offing, Miss Nichols' play should be seen by every reader of this paper. Some day there are going to be revivals of this much criticised comedy, and then it will be as a mark of distinction to be able to say: "I saw the original company fifty years ago" or "I saw the very excellent company that played at the Garrick for one whole season," and then recall with great gusto the superior character work of Joseph Greenwald as "Solomon Levy," of Harry M. Stewart and Pauline Hoffman as "Mr. and Mrs. Cohen," and so on through the entire list of the present able and congenial company. By all means go and see "Abie's Irish Rose," and then discover for yourself the secret of its tremendous success. Regular matinees are given each week on Wednesday and Saturday and it's good judgment to make your reservations early.

**MORE DAIRY COWS NEEDED IN MICHIGAN**

One hundred and ten thousand, five hundred and two more dairy cows will be needed in Michigan by 1930, according to the Blue Valley Creamery Institute. This number will be required to take care of the normal needs of the state's growing population unless Michigan farmers adopt the double-barrelled policy of breeding only from pure-bred sires and then feeding their progeny balanced rations.

An average cow produces about four thousand pounds of milk a year containing 160 pounds of butterfat, the Institute states, or just about enough to meet the requirements of a family of four with milk, butter, cheese, ice cream and condensed milk. A daughter of a high production sire, fed in accordance with the methods advocated by the state agricultural college, will produce around six thousand pounds, and her offspring under the same conditions in turn should not find it impossible to bring her production to the eight-thousand pound mark per year.

Should Michigan farmers adopt the advanced practices outlined above, only about half of the 110,502 cows would be needed to supply the state's dairy products needs five years from now, says the Institute, basing its conclusions on figures from hundreds of cow test association reports. Not only would the smaller number of quality cows make twice as much clear profit per cow above feed costs, but their owners would still

have a ten-dollar gold piece per cow over for good measure.

**NEW STUDEBAKER PLEDGE**

Square deal merchandising of used motor cars, established by Studebaker dealers with the backing of the Studebaker Corporation, ends any uncertainty attending the purchase of a used car. Dealers W. M. Shaw, local dealer, who was one of the first to sign the nationally adopted Studebaker Pledge to the Public on used car sales.

In signing this pledge, Studebaker dealers agree to the following:

1. All used cars offered to the public shall be honestly represented.
2. All Studebaker automobiles which are sold as certified cars have been properly reconditioned, and carry a 30-day guarantee for replacement of defective parts and free service on adjustments.
3. Every used car is conspicuously marked with its price of our new cars, is rigidly maintained.
4. Every purchaser of a used car must drive it for five days, then, if not satisfied for any reason turn it back and apply the money paid as credit on the purchase of any other car in stock—new or used.
5. To sell unused transportation rather than used cars is the keynote of the Studebaker pledge plan. It is generally recognized that many cars are traded in on new cars before their full worth has been exhausted. This is especially true with Studebaker cars, hundreds of which show records of 100,000 to 200,000 miles and some even as high as a half million miles of service. Yet the average car turned in has been driven but 28,000 miles.

To take advantage of this reserve transportation, most of the Studebakers taken in trade are repainted and otherwise reconditioned before being offered for sale. These are known as "certified used cars" and carry a guarantee of thirty days free service on adjustment and replacement of defective parts.

"The Studebaker pledge to which we have unconditionally subscribed is the most progressive step ever taken by any automobile concern," said Mr. Shaw of the local Studebaker organization in commenting on the common sense method adopted by the Studebaker factory for regulating the sale of used cars. "It enables the purchaser to know exactly what he is buying, and to purchase with the full assurance that we stand squarely behind the car he buys from us."

A large reproduction of the Studebaker Pledge, bearing the signature of W. M. Shaw now stands in the showroom of this concern, stating the exact conditions under which every used car is sold by this organization.

**GREATEST SHOW ON EARTH HERE SOON**

Bringing more than eight hundred of the world's premier men and women stars, three hundred and fifty performing horses and many big, new foreign features, the Ringling Brothers and Barnum & Bailey circus is to give performances at Detroit July 13 and 14.

Here is a partial list of its wonders: One hundred railroad cars. Five rings in place of the three heretofore used. Six arena stages. One hundred and fifty trained elephants present at one time in a magnificent "Equine Ballet." High wire acts introducing no less than nine of the world's most famous dancing, somersaulting and bounding-wire artists in a single display. Five herds of trained elephants. A troupe of twenty leaping and long-distance jumping horses, and many other imposing acts and features.

Among the host of noted performers are the Australian Colleone, the Spanish wizard, Mito, Maximo, Naida Miller and Barto, Beeson who head the congress of high-wire artists. May Wirth, the George Hannaford troupe, "Phil the marvel," the Ernestos and the Rieffenbach sisters are among the seventy bare-back riding champions. Lillian Lettzel, Mlle. Filles, the Clarkson-Nelson troupe the Siegrist-Sibbons and the Rooneys lead the aerial displays.

Entire families of famous gymnasts are being presented. These include the Colleone family of eleven remarkable athletes, the Nelson family, world's greatest acrobats and tumblers, the Pichianis troupe who have come from Italy to astound with their gymnastic feats, the Medinis who perform upon ladders as high as

the tent-top, the Junetro troupe, acrobats who wear tall stilts, and a host of others.

The addition of two more circus rings has been effected by setting circular curbs on two of the elevated stages. This makes it possible for Ringling Brothers to present for the first time in history, five separate companies of performing horses at one time.

Gorgeous pageants, a hundred clowns and a menagerie of over one thousand rare animals are a part of what is the biggest and most amazing circus ever on tour in America.

**HARRY DELFIS TEMPLE HEADLINER**

Harry Delfis, the popular Broadway comedian shares the headline spot with Herman Timberg's glorious Spanish dance fantasy entitled, "Rosita" at B. F. Keith's Temple Theatre commencing Sunday matinee, July 5. Harry Delfis, featured comedian with several musical comedies, will sing some new songs written by himself and offer several dances which he originated. Featured in "Rosita" is Nela Viela, a sensational danseuse assisted by Pilarica and Peco Moreno, dancers from the Spanish court and a sizable ballet. Other acts billed include: Meehan's educated canines featuring his celebrated leaping hounds; Josephine Harmon and Georgia Sands, delectable girls with excellent voices in a routine of harmony singing; Seymour and Jeanette, two "Midnite Strutters" featuring Miss Jeanette's vaudeville's only colored male impersonator; the Paul Brothers presenting a sensational high perch act; Bert Milrose, the international clown and the usual picture offering.
