

When Punctured
What most of us consider a peek of trouble could easily be put into a quiet measure.—Boston Transcript.

Believe It or Not
Our regular absent-minded professor recently put the cat to bed and picked himself downstairs.—Colorado Idea.

Didn't Want to Hear Papa
Betty and Bobbie were operating the radio. Suddenly from Betty came a scream of delight. "Listen!" she cried, "I have San Francisco, and that's where mother said daddy would be today." Bobbie paled a little, but he stood his ground. "Turn that dial," he commanded firmly. "What's the matter with you? Don't you know I broke a window pane today?"

OLD—BUT TRUE

Big Oaks From Little Acorns Grow

The old saying that "Big Oaks From Little Acorns Grow" applies with exceptional truthness to the accumulation of a Savings Account. As small an amount as one dollar may be used as the acorn from which seed you may grow your own oak tree of savings. And in later life its sturdy growth will protect you from the storms and its spreading branches will shelter you from the burning shame of old age poverty. We want to help you get started saving—let us tell you about the different plans we have for your use.

Mercury

Mercury is a metallic element existing in a liquid form except when exposed to a very low temperature. It is commonly called quicksilver. It is a metallic element. Just as iron or gold is an element, that is, it cannot be subdivided into anything else, but there are many compounds of mercury, that is, mercury in chemical combination with other things such as compounds of mercury and oxygen, mercury and nitrogen, etc. A large part of the world's supply of mercury is obtained in California where ores are found containing mercury in combination with other matter, separated by various chemical processes. Gold dust readily unites with mercury forming an amalgam. The mercury is afterwards removed by distillation.

WITH REGRETS

It is with deep regret that the Oakland Heights Community Improvement Association announces the indefinite postponement of their "Outdoor Dancing Party" which was to have been held Saturday evening, September 19th. The recent heavy rains have made it impossible to get the grounds in proper condition for the event. All tickets will be redeemed by Mrs. Addie Merritt or Association members at their face value.
