

**NICHOLS SCHOOL NOTES**  
 The girls of our school have organized their Sewing Club. The officers are:  
 President, Wanda Currin.  
 Vice president, Irma Currin.  
 Treasurer, Viola Bachelor.  
 Secretary, Ellen Grace.  
 Club Leader, Ruth Lovell.  
 They have taken for their motto, the National motto in graphic form. It is the four H's of achievement: The head to think, plan and reason; the hands to be useful; the heart to be kind and true; the health to be able to resist diseases and enjoy life! We would like the mothers of the community to take part in our meetings on Tuesday afternoons at 4:00 o'clock.  
 We are working to make our school an "Achievement School." We have nearly reached our goal. Our flag has been up every sunny day since school started. We are looking forward to our first star when Miss O'Connor visits us again. Parents will you help us? When you have all been to visit us we will win another star. When we have won ten stars, Nichols School will be one of the Achievement Schools in Oakland county.  
 The sixth grade have enjoyed making product maps of the New England states.  
 We have tried to make Friday afternoon real pleasant by using the last half hour for public speaking. The materials used are: Current Events, jokes, book reports, riddles and assigned reports. Last Friday, Wanda Currin gave a real interesting three minute talk on "Why boys and girls should continue their education beyond grammar school." Next week Stuart Cole will give one on "A good example of fair play." We expect to have some real Henry

Clay's in school before long. Floyd Bond has the honor of not missing a word in spelling so far this year and he isn't going to.  
 We appreciate our school being painted. We also want to thank the school board for our new bulletin board.  
 We are drawing and painting maple leaves in drawing period this week.  
**CHICAGO STOCK SHOW TO SET NEW RECORDS**  
 Advance indications are that all records will be smashed at the twenty-sixth anniversary session of the International Live Stock Exposition which will be held in Chicago, November 28th to December 5th, according to Secretary aManager B. H. Heide. He reports that never before in the long and illustrious history of this show has there been so much enthusiasm shown by exhibitors and prospective visitors.  
 More than ten thousand of the finest horses, cattle, sheep and swine will be entered in the numerous contests to strive for supreme honors at this acknowledged "Supreme Court of the Agricultural Industry." These animals include the champions of the state and sectional fairs and many others which will be shown at Chicago for the first time and they represent the highest attainments of the world. In addition to the leading live stock authorities of the United States and Canada, two noted foreign judges will assist in making the awards, J. Egerton Quested of Kent, England, serving in the steer and Red Polled classes and Robert Duncan of Forfarshire, Scotland, acting as judge of the breeding Shorthorns.

Director G. I. Christie of the Indiana Agricultural Experiment Station, who is the superintendent of the International Grain and Hay Show, which is a department of the exposition, expects over five thousand samples of choice grains, small seeds and hay to be entered for world titles in these contests. Canadian entries have been especially strong this year. A new feature will be an exhibit of recently discovered varieties of crops contributed by the various experiment stations which will be under the personal charge of Professor M. O. Pence of Purdue University. The U. S. Department of Agriculture and the State Agricultural Colleges will stage educational displays dealing with a wide range of subjects.  
 Twelve hunsred champion club members will attend the Fourth National Boys and Girls' Club Congress at the Exposition. They will compete in various contests, exhibit the products of their skill and give demonstrations of the projects in which they have been engaged. A meat display under the auspices of the National Live Stock and Meat Board will appeal directly to the housewife.  
 A brilliant evening entertainment each night, pure-bred live stock auctions, association meetings, and other activities will crowd the visitors' program. Reduced rates on all railroads entering Chicago are expected to bring to bring several hundred thousand guests to the metropolis to enjoy the educational and entertainment features of the world's greatest agricultural show in Chicago the first week in December.  
 Enterprise Liners bring results, bring quick results.

**Drawback to Invention**  
 Sir Jagadis Chandra Bose, famous Hindu scientist, has invented an instrument with which one can see through a heavy book. But many books are so heavy that it would be a torture to have to see through them.

**Bishop's Panacea**  
 Bishop George Berkeley, celebrated for his writings on philosophy, had one great catholism—tar water, which he recommended as a universal remedy. In 1734 he published a book setting forth its value.

**Machine-Sown**  
 "Log-sow it, Judge," said the old farmer as he looked out his purse and prepared to pay his son's fine for speeding. "It's got so nowadays that a young fellow can't even sow his wild oats without a machine."

# BUILDER'S PARK

"A SUBDIVISION WORTHY OF ITS NAME"

There is an old saying that: "Half of the world does not know what the other half does."

It is many times true that the people in one half of the world don't know what is going on in their own half.

There are many people who live in and near Farmington who are not awake to the future development that is going to take place here. When they see evidences of the tremendous activity in this locality in the very near future, they are sitting idle and letting outsiders come into this district and buy up the property that will some day, and even in the near future, make them a nice profit.

Every day somebody comes into our office and tells us that they wish they had invested their money in a certain district. In a few months or years those

very same people are going to say the same thing about this district, they are asleep to the progress that is going on about them.

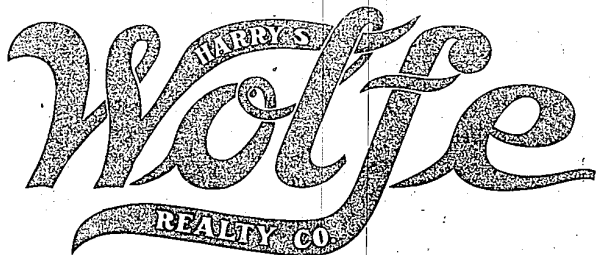

BUILDER'S PARK is right in the center of this district that will show a tremendous increase in property values a year from today. The prices which we have placed on the lots in BUILDER'S PARK are extremely low. A comparison of prices will show you this.

Are YOU going to let some outsiders make the profit that you should make. Your answer should be "NO." So come into our office and select your lot before the choice ones are gone.
