proval last week.

Trustee railification was the last burdle for the proposed station, which has been in the works for 18 months. According to township's chief building official, Acron Machnik, construction will get under way as soon as the necessary paper work is completed.

The final board action awarded the building contract to Hickson-Costigan, Inc., a general, contracting firm in Farmington Hills.

Machnik recommended Hills.

Machnik recommended Hickson-Cos-igan, Inc., the low bidders, for the project. "Their track record and effica-cy is beyond reproach," Machnik said."

In Canton Township

An example of the firm's work can be seen in the addition to St. Michhel Latheran Church at Skieldon And Warren, which was completed in 1979.

A total of 34 bids were accepted for construction of the 32,000 square foot station to be built as an extension of the existing township hall at 1198 G. Canton Center Road.

The Hickson-Costigan bid promised completion of the police facility in 265 days at a cost of \$1,923,213. The bid was \$46,000 less than any other bid.

Completion time varied greatly, among the bids submitted, the low being 240 days, the high 535 days. Trustee Carol Bedenmiller questioned Tom Hickey, secretary-treasurer of Hick-

Dolgner, Dundon, and Argenta, which draw up its plans, be alread too.

"Bull and the buildings progress. It's sary for folks not to commenciate. It's sary for folks not to commenciate. It's sary for folks not to commenciate. We want to avoid that by trying to keep communication lines open sud active all the time. "Machnik sard.

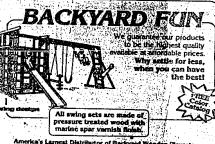

He stressed close supervision is important, especially. In a project this scale of the polles station. "In our importions if we miss even two days a lot can have goes on. The trupters suthorized Machnick to negogiate for an on-site supervisor from the architectural firm.

The one polles station will be built onto the northest side of township hall. The outside trim will match that of the present building. There will be a small parking lot paved in frect of the new building, and the area surrounding it will be re-landscaped.
