A Farmington Hills author has been amed "Volunteer of the Month" by Farmington Community Center. Phyllis Welch, author of "The History of Farmington Community Center" and chairwoman of the center's Volunteer Guld tour group, is benored for her long-term involvement and service to the center involvement and service to the center's Volunteer Could tour group, is benored for the center's Volunteer Could to the Could

should be mixed with care following the directions of the manufacturer.

Be sure and use only a special set of tools for mixing and measuring chemicals—spooms, measuring cup, stirring red, etc. Perhaps it would be wise to get a roll of red masking tape and mark these detentia.

Before you spray, check to see that no lows; tood or disher are lying nearby. Keep children, pets and anyone else not involved a long distance away from where you mix, apply or spray chemicals.

Protect your skin from contact by wearing clothing that covers your arms and legs, and be careful not to inhale dust or spray, DON'T SPIALY, ON A WINDY DAY. The spray could come

back on you or your neighbor.
Your columnist has noticed imported vegetables in many large markets. There is an excellent new book out. Oriental Herbs and Vegetables. Brooklyn Botanic Garden, 1000 Washington Avs. Prooklyn NY, 1123. \$2.55 pits 10 cents postage. Chinese, Japanese and Thal recipes, are discussed.

TRADITIONAL Japanese and Chinese herbal modicines are still practiced today. Almost a third of the world's population receives some form of traditional Chinese medicine. This 78-page publication challenges the alert gardener and cook to grow with the times and try seme of these new oriental ideas. Your columnist is always sopping up new ideas gathered from magazines, newspapers, books and anything which could be cataloged as a new idea to share.

share.

The instructions are placed in loose-leaf notebooks with plastic covers with the collected data which becomes a part of a working notebook.

I used these ideas when teaching college students in therapeutic gardening.

Food services need license

For those who are planning to serve food or drink to the public in fairs this summer, the Oakland County Health Diviation reminds that a temporary il-cense is required.

When a temporary food site is approved, risks to the public are reduced. The division suggests applying for a license at least seven days before the anticipated opening of the event. The cost is \$16 for 14 days of operation at one location.

Inquiries are taken by contacting the division's Environmental Health Services, 858-1312.
