Parks plans family doings

Sunday, Aug. 5, is American Family Day.

Area families can celebrate the day together by participating in activities offered at nine Oakland County Parks.

For example, the whole family can pitch in on a camping expedition. Primitive and modern facilities are available at Addison Oaks, located on West Romeo Road near Oxford, and Groveland Oaks, on Dixie Highway at Grange Hall Road in Holly.

The entire family can enjoy the wave-action swimming pool and double-flume Slidesider waterslide at Waterford Oaks on Scott Lake Road near Pontiac.

Families can take the plunge on the 65-foot Rampage into Stewart Lake at

Groveland Oaks. Swimming is also available at Independence Oaks on Sashabaw Road near Clarkston, and at Addison Oaks.

Water fun also means drifting along in a person-powered boat. Addison Oaks, Groveland Oaks and Independence Oaks offer rentals and pedal boats. Canoes also may be rented at Groveland Oaks and Independence Oaks.

For those who enjoy a little competition, court games might be a good choice. Waterford Oaks offers tennis, shuffleboard, horseshoes, platform tennis and volleyball.

A round of golf is another activity for the whole family. Three county parks offer 18-hole courses: Glen Oaks, on 13 Mile Road between Orchard Lake

and Middlebelt roads in Farmington Hills; Springfield Oaks, Andersonville and Hill roads in Davidsburg; and White Lake Oaks, South Williams Lake Road, just off M-59 near Pontiac.

A nine-hole executive course and driving range are available at Ford Oaks, on John Road north of 12 mile Road in Madison Heights.

Hiking the more than eight miles of trails at Independence Oaks provides families an opportunity to explore and enjoy nature together.

Nature's beauty can be appreciated at a family picnic. Spots at Addison Oaks, Independence Oaks, Groveland Oaks and Waterford Oaks are ideal for such outings.

Additional information may be obtained by calling 858-0906.

Putting heat on pain

Continued from Page 3

be photographed, then waits 30 minutes for his body temperature to be acclimated to the room temperature. Then various views of the affected area are shot three times, at 15-minute intervals.

The average cost of a thermogram is \$250 for a single study.

In 50 percent of the cases, the results come back normal, showing no evidence of pain, Morse said.

"We're not saying the person doesn't have anything wrong with them," Morse said. "But this is one other report that can objectively that there is no pain."

Lawyers have found thermograms useful in proving whiplash claims. But ATs tries to avoid taking referrals from lawyers, Morse said. Lawyers don't have the medical training to decide what type of thermogram is needed for their client.

"We don't want to ever be the ones putting a lay person into a judgmental situation," Morse said.

In January the Michigan Court of Appeals ruled — in the aptly named case of Williams vs. Payne — that if a plaintiff is going to complain of soft-tissue pain, he must have a medical measurement to back it up, Morse said.

"They said in their decision the only way to measure muscle spasms or soft-

tissue disorders is a thermogram," he said.

Many other medical uses will be found for thermograms in the years ahead, Morse predicted. Researchers already are working on such applications as cancer treatment, headache research and male fertility treatment.

In other words, look for thermography to be a hot medical technique in the next decade — with no cooldown in sight.
