Think slim

Eat smart during the holidays

Are you looking forward to the holidays or dreading the inevitable weight gain that seems to occur as regularly as the seasons?

Will it take you well into spring before you get rid of the extra pounds accumulated by holiday partying?

It's surprising how many people this time of the year throw discretion to the

wind, to eat and drink themselves into unnecessary fat and bloat.

If this routine has been happening to you, year after year, why not decide ahead of time that this year will be better? You will not gain weight over the holidays. Remember how mad at yourself you were last year, when all you got was a thinner wallet and a fatter body?
