Red Cross seeks funds to combat starvation

The Southeastern Michigan Chapter of the American Red Cross is accepting contributions for African famine relief. More than \$21,500 in unsolicited contributions already have been received by the local chapter.

Chapter chairman Anthony J. Vinci announced that the executive committee of the board of directors has approved a campaign to raise a minimum of \$120,000 from the citizens of the metropolitan Detroit area.

Checks should be made payable to American Red Cross, earmarked "African Relief" and mailed to: Executive Office, American Red Cross, Southeastern Michigan Chapter, P.O. Box 351, Detroit 48232.

Contributed funds will be channeled directly to the League of Red Cross and

Red Crescent Societies which is coordinating a worldwide African relief campaign.

"Helping people in need at home and abroad is a Red Cross tradition," said Vinci. "But perhaps no disaster has ever posed a greater challenge to Red Cross than the famine in Africa. Literally thousands of men, women and children are starving to death every day. In some places in Africa it has not rained for two years."

The League of Red Cross and Red Crescent Societies has issued a worldwide appeal for \$27 million in emergency relief. The American Red Cross has promised to raise a minimum of \$5 million to help the relief effort in 12 of the most severely affected countries. The Southeastern Michigan Chapter goal of \$120,000 is part of the national Red Cross effort.

The countries that will receive Red Cross aid are Chad, Djibouti, Ethiopia,

Kenya, Mali, Mauritania, Mozambique, Sao Tome, Senegal, Zambia, Zimbabwe and Tanzania.

Several American Red Cross teams will travel to Africa to obtain first-hand information on famine conditions and relief operations. The teams will be headed by American Red Cross President Richard F. Schubert and will be accompanied by actor Charlton Heston.

Although the official American Red Cross fund campaign will not begin until January, the Southeastern Michigan Chapter is accepting donations which will be forwarded to the national Red Cross on a weekly basis for transmission to the League of Red Cross Societies in Geneva, Switzerland.

Contributions to Red Cross will be used to obtain food and medical supplies, to transport those materials to the affected areas, to staff relief operations, and to develop long-term food

production programs in areas where agricultural production has virtually disappeared due to the lack of rainfall over an extended period of time. Red Cross relief efforts will be aimed primarily at helping "high risk" groups such as children, nursing mothers, pregnant women and the elderly.
