By Lark Samouelian
Special writer

Maintaining composure while viewing oneself on television may be challenging the first time around. How excited and proud you will be as the time draws closer. And then, "Wow, is that really me? Do I really sound like that? See if that outfit ever sees the light of day again."

Now calm down. Ease up on yourself. Remember what the intent of your program is. Are you projecting the image which will enhance the intent of your message?

• Listen to your tone of voice. Is it clear and pleasant to the ear?

• Do you appear comfortable?

• Notice your speech pattern. Is there room for improvement? For example, do you have a pet phrase?

• Does your set provide the atmosphere conducive to the subject matter?

• Were you attentive to your guest's dialogue?

• Do the cameras follow the activity with precision?

Collet joins Tampa firm

Michele A. Collet recently joined Seminole Electric Cooperative in Tampa as the organization's employee communications representative. Collet is an accredited member of the Public Relations Society of America (PRSA) and a board member of that organization.

Collet is the daughter of Fred and Ann Collet of Farmington Hills and a graduate of North Farmington High School and Michigan State University.

Most recently she was a public relations specialist for the University of South Florida in Tampa. Collet previously served as account supervisor for Public Communications Inc., Tampa-St. Petersburg.

She is responsible for employee publications and internal communications at Seminole Electric Cooperative, a generating and transmission electric utility that provides power to 11 distribution cooperatives that serve member consumers in 45 Florida counties.

Now take a deep breath, pat yourself on the back and reflect on what a marvelous learning experience you have had.

Maybe all this was worth it.

In Home Modernization... The Builder Can Make The Big Difference.

Once you know who we are... you won't buy from anyone else!

How long has it been since you found someone who takes old-fashioned pride in his work? Who doesn't skimp and cut corners? Who gives you a full measure of honest value, and backs his work to the hilt? Who prices every job fairly, so that it doesn't cost you an arm and a leg?

In the home modernization field, especially, people will say that's an impossible dream. Today, Bob Stern is making it come true.
