## Can you imagine not worrying about cancer?

The choice is up to you: Cancer doesn't have to mean death, disfigurement or destruction of your family. Cancer can be the most curable of all serious diseases, with early detection.

That's why we've designed the only medical center dedicated exclusively to early cancer detection—with every cancer screening test all under one roof: The American Cancer Detection Centers.

A cancer detection exam just makes good health sense—like routine dental check-ups.

That's why the American Cancer Society recommends a cancer detection exam at least once a year for all men and women over forty, and at least every three years for everyone between twenty and forty.

It's always been a fact of life, early cancer detection—before the traditional symptom and warning signs appear—simply increases your chances of living.

So stop worrying about cancer now! Make your choice today. Call 851-2800 or mail in coupon below. We're located in the Forest Park Complex: 31410 Northwestern Highway in Farmington Hills. We accept most major insurance plans. Extended Hours, Saturdays & Family Plans Available.
