**ONE SPORTS SEDAN SAYS
MORE ABOUT YOUR INTELLECT
THAN ABOUT YOUR INCOME.**

Frankly, what a lot of European sports sedans say about their owners is, "They're willing to pay a lot of money for a status symbol."

On the other hand, your Saab says that your tastes are more sophisticated. And that you were smart enough to get what you wanted on your own terms, without parting with a fortune for it.

Which is why we say, you're invited to test drive a Saab.

SAAB
The most intelligent car ever built.
