Built on Integrity
Backed by Results

Since 1979, Physicians WEIGHT LOSS Centers has helped thousands of Americans lose millions of pounds. We're a national organization with over 175 out-patient centers operating in 19 states.

We've aligned ourselves with your medical community, acting as a bona fide support service by treating the non-emergent, overweight patient. Under close medical supervision our patients lose a guaranteed 3 to 7 pounds each week.

Patients are taught how to plan nutritional, well-balanced meals consisting of grocery store foods. Our Behavioral Guidance programs show the patient how to identify and then modify poor

eating habits so that they can stay slim forever.

The real strength of our program lies in our dedicated and compassionate staff...physicians, nurses and staff counselors...caring professionals who understand the frustration of coping with a weight problem. They consider each of their patients' successes as personal victories.

We have restored trust in the weight loss industry. We invite you to come to our Open House to witness the integrity and uncompromising services we provide to all our patients. See for yourself why Physicians WEIGHT LOSS Centers is built on integrity and backed by results.
