

Students produce cable talk show

A talk show for countywide cable TV distribution will be produced by Oakland Community College students, under faculty direction, at the Orchard Ridge Campus starting this spring.

Three 15-week Communication, Arts and Technology courses dedicated exclusively to the cable TV show will be offered.

Students will have an opportunity to earn from three to seven credits.

Although these courses are not included in the 1995 spring-summer schedule of classes, they will be offered during both the spring and summer sessions if there is enough student interest.

Classes will meet from 12:30-4:30 p.m. on Tuesdays beginning May 7.

Registration for the spring and summer sessions will take place on May 3 and July 1, respectively.

For full details and registration information, contact Ted Ranscott at 471-7702 or 471-7708 or David Doldge at 471-7699 or 471-7682.

Mercy offers course in neonatal distress

When an infant stops breathing, the care received during the next few minutes is critical.

Nursing professionals can learn how to manage neonatal distress effectively at "Resuscitation and Stabilization of the Newborn" workshop presented by the Mercy College Office of Continuing Education from 7:45 a.m. to 5:30 p.m. Thursday, April 18 at the college.

Nurses will learn what responses to expect when initiating and maintaining respiration in newborns and what the nurse's role and responsibilities are. Instructors for the workshop will be registered nurses Karen Braune and Linda Ostley.

The program has been approved for 10.0 contact hours by the Nurses' Association of the American College of Obstetricians and Gynecologists (NAACOG).

The fee for this workshop is \$95 for NAACOG members and \$120 for non-members. This includes registration, lunch, materials and refreshment breaks. The registration deadline is April 4. For more information, contact the Mercy College Continuing Education Office at 592-6224.
