There's a world
of difference
between
learning
and loving
to learn.

That's the
Children's World child care difference.

Learning is a roomful of energetic preschoolers trying to sit quietly while a teacher recites a pre-planned lesson from a standardized manual.

Loving to learn is that same group of children exploring the wonders of the world with a teacher who makes the process of learning as fresh and exciting as the lesson itself.

That's the Children's World Concept. And the Children's World difference your child deserves.

The Children's World Concept:

A child taught with love loves to learn.

Our teachers teach from the heart to open the mind. They're free to create activities which spark each child's natural eagerness to learn at his own pace. Your child will gain confidence and welcome new experiences.

In short, your child will learn the joys of learning at Children's World. And that's a lesson that will last a lifetime.

Come see our world of difference.

The best way to understand the Children's World Concept is to see it in action. Visit your neighborhood Children's World, and discover the difference our loving care can make.
