## There's an epidemic with 27 million victims. And no visible symptoms.

It's an epidemic of people who can't read.

Believe it or not, 27 million Americans are functionally illiterate, about one adult in five. Forty-seven million more are able to read on only the most minimal level. Together, that's almost 75 million Americans...one third of our entire population.

The solution to this problem is you...when you join the fight against illiteracy. So call the Coalition for Literacy at toll-free 1-800-228-8813 and volunteer.

The only degree you need is a degree of caring.
