Advice on how to care for dry skin offered

Winter's frigid temperatures, blister-ing winds and dry indoor heat can cause otherwise healthy skin to develop "winter itch." and become red, flaky and reugh.
With Henry Ford Hospital's Health Care Hotline, 876-7100, dialers can keep skin healthy all winter long. The hotline offers dermatologist's sugges-tions for protecting skin against harm-ful winter elements.

tions for protecting skin against harmful winter element.
It is important for winter sports enthusiasts to use extra precautions. Bright sun reflected off snow can burn skin, and lips can dry up and crack. Too much bathing can also make skin flaky and dry.

Other skin care tips can be heard on the Health Car Hotline, offered as a public service by WNIC Radio and Henry Ford Hospital's Department of Dermatology.

A second hotline, 876-2800, explains the hazards of frostbite, how to spot it and how to treat it.

High aspirations are visible

Dear Mrs. Green:
I'm very interested in graphology, so was very interested in your column. I was visiting in Canton when I read your article and thought I'd like to get your comments on my bandwriting.
I am a 24-year-old woman, right handed, married, and the mother of a teen-ager and young adult. I work full time as an executive secretary/office manager and attend the University of Milchigan for one night class in the pursuit of a bachelor's degree in psychology, that is nearly completed.
I have been pursuing a better understanding of myself for many years now, and feel I've accomplished a lot. Any assistance from you toward that goal, is greatly appreciated.
