Fleming report 'basis' for deal, lawyers say

The Michigan Trial Lawyers Association sees the Fleming report on bearing medical malpractice claims as an opportunity for compromise between warring attorneys and medical people.

"We consider the most important finding to be the urgent need for legislation to prevent medical malpractice," said MTLA President Nicholas Rine.

The malpractice report was made by Robben Fleming, Gov. James Blanchard's special fact-finder. Rine said, "We suggest that the governor offer the Fleming report as the basis for a meeting of the medical and legal professions, together with malpractice insurance companies, in order to consider these new recommendations."

Rine opposed some of the lawsuit

reforms advocated by Fleming, notably reporting "collateral source" recovery methods in an effort to reduce what insurance people call "double dipping" in recoveries. "The report's approval of collateral source restrictions would lead to unfair limits being placed on the jury award to victims of medical malpractice," said Rine.

Rine also opposed Fleming's call for assigning degrees of liability, which insurers say would prevent a party with 10 percent responsibility being nicked for 100 percent of the jury award. "The proposal to assign degrees of fault in occurrences of malpractice places one more legal burden on victims that will result in lengthy court battles over the apportionment of compensatory damages."
