**Your child will gain one full grade level in just 36 hours. Guaranteed.**

In just a short time, your child will be reading at a full grade level better. Or solving math problems that right now seem impossible. And, best of all, discovering how it feels to succeed.

How? By spending two hours a week for 18 weeks at a Sylvan Learning Center. Sylvan's proven approach to learning has helped thousands of children do better in school. In a stress-free environment of positive encouragement and personal attention, we guarantee your child's math or reading skills will improve a full grade equivalent score in just 36 instruction hours. Or we will provide up to 12 additional hours of instruction, at no further cost.

To help your child master the basic reading and math skills, call the Sylvan Learning Center near you for a free consultation. The sooner your child begins, the sooner he'll gain a full grade level in reading or math.

We guarantee it.

Measurement will be based on a nationally recognized achievement test and the improvement in either reading (comprehension or vocabulary) or math (computation or application).

Call today to arrange for a free consultation, or to receive this free booklet.
