Did You Know That Last Year's U.S. Savings Bonds Average Rate Exceeded 9%?

Many people all over America are surprised when they hear what U.S. Savings Bonds have to offer.

For starters, Savings Bonds give you market-based interest rates—like the money markets—plus the security of a guaranteed return. This means you can earn a lot more than the guaranteed minimum rate of 7½%, but never less! To earn the higher rates, just hold your Bonds for five years or longer.

Here's more surprising news—the interest you earn from Savings Bonds is free from state and local income taxes. And you don't have to pay federal taxes on the interest earned until you cash in your Bonds.

Savings Bonds are easy to buy, too. They cost as little as \$25 and can be purchased at most banks and savings and loans. Or through the Payroll Savings Plan where you work.

All of these advantages are making Savings Bonds an increasingly popular investment. Last year, sales of U.S. Savings Bonds were up nearly 30%.

With all that Savings Bonds have to offer, it's no surprise they're one of the best investments in America. For the current rate, just call toll-free 1-800-US-BONDS.

U.S. SAVINGS BONDS *Paying Better Than Ever*

Market-based rates apply to Bonds purchased on and after 11/1/80 and held at least five years. Bonds purchased before 11/1/80 earn market-based rates when held beyond 10/31/87. Bonds held less than five years earn lower rates.
