

AMERICA'S TOUGHEST SECOND JOB.

Protect their future while they protect yours.

It's in the National Guard and Reserve, and your employees don't do it for the money or for the glory. They do it because they believe in a strong America.

And the Guard and Reserve is strong. It's one-third of our nation's defense. So when your employees ask you for time to train to help make our

country more secure, give them that time. Because this is one second job that will help them do their first job better.
