Clear thinking depicted in writing

Dear Ms. Green:

I am a soon-to-be 61-year-old, right handed white female, who, like so many readers, has always wanted to have a handwriting analysis.

My handwriting has not changed appreciably in style, though I find that I do write larger and perhaps a little more freely however I must confess that this may have something to do with the type of pen I am using at the time. I prefer a pen with this caliber of tip, as it seems more appropriate for my style of penmanship.

I will look forward to receiving your analysis. I might add that, if I am in a hurry, my writing then looks like this. I hate to write long letters especially.

D.K.,

Lorene Green

same profile three out of four was flattered by the reflected, but question

Very early you probably rebelled against the confines of traditionalism and family rules. Avant-garde thinking and a need to maintain your individuality punctuate your handwriting.

In spite of your dislike of discord you are a tad obstinate when confronted by authority figures. It seems quite possible you have not entirely worked through your early resentment to an authority figure.

A preference for keeping things simplified is woven throughout your

handwriting. You can eliminate the extraneous as you move toward the important elements of a task or goal.

You are organized, dependable and use time effectively. You prefer equipment that will expedite your work. A flair for money matters seems apparent also.

Smooth and easy flow of your thoughts is indicated. This signals coherent and uninterrupted ideas. Literary aptitude abounds. You are highly gifted in the use of words.

Art is meaningful and may also be an aptitude. Reading furnishes both pleasure and answers for your inquiring mind.

Time is not frittered away on either people or projects that are not meaningful. You may do a little special climbing as you enjoy being a part of the "in crowd".

In many areas of your life you are ruled by your head. Emotions are often held in check. But you also experience some fluctuating emotions and can be carried along by your concern for others.

Most of your goals are in the area of practical attainment and carry feelings of optimism. But others appear to be lacking in any personal challenge. I can't help wondering if you are underestimating your capabilities and God given talents.

As a public service, readers are invited to have their handwriting analyzed. Write to Lorene C. Green, a certified graphologist, 33221 Schoolcraft, Livonia 48150. Please use a full sheet of white, unlined paper writing in the first person singular. Age, handedness and signature are all helpful. Feedback is always welcome.

Did You Know That Last Year's U.S. Savings Bonds Average Rate Exceeded 9%?

Many people all over America are surprised when they hear what U.S. Savings Bonds have to offer. For starters, Savings Bonds give you market-based interest rates—like the money markets—plus the security of a guaranteed return. This means you can earn a lot more than the guaranteed minimum rate of 7½%, but never less! To earn the higher rates, just hold your Bonds for five years or longer.

Here's more surprising news—the interest you earn from Savings Bonds is free from state and local income taxes. And you don't have to pay federal taxes on the interest earned until you cash in your Bonds.

Savings Bonds are easy to buy, too. They cost as little as \$25 and can be purchased at most banks and savings and loans. Or through the Payroll Savings Plan where you work.

All of these advantages are making Savings Bonds an increasingly popular investment. Last year, sales of U.S. Savings Bonds were up nearly 30%!

With all that Savings Bonds have to offer, it's no surprise they're one of the best investments in America. For the current rate, just call toll-free 1-800-US-BONDS.

U.S. SAVINGS BONDS Paying Better Than Ever

Market-based rates apply to bonds purchased on and after 11/1/82 and held at least one year. Bonds purchased before 11/1/82 earn market-based rates when held beyond 11/1/82. Bonds held less than five years earn lower rates.
