In banking, too, small can be advantageous.

When it was invented, the contact lens opened up a new vision to the world, and showed the advantage of thinking small but smart.

We'd like to do the same for banking. So we offer our customers a few benefits the bigger guys can't.

Like more personal service. The kind of individual attention that lets our customers know that we appreciate them for their confidence in us, not just for their cash.

Like a better APR with our Equity Connection credit line. At 1.75% over our established prime rate, it's a better deal than the 2% over prime most big financial institutions are offering.

Stop by or call United Savings Bank today and find out how small can be advantageous for you.

We may be small in size, but we're very big on serving our customers.
