CELLULITE BODYTON

Eight out of ten women of all ages and weights are noticeably marred by dimpled, rippling masses of fat that charitably we call cellulite. Cellulite is not natural caused body fat and cannot be lost with the usual diet and exercise. Cellulite is a skin condition that treatment safely removes in minutes using cold cellulite patches, tonics and high frequency ultrasound. No surgery. Measurable results within the first visit.

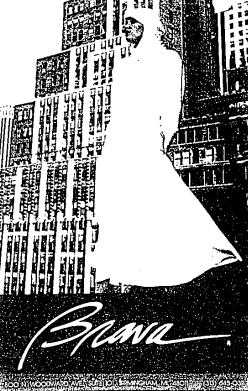

SOME CELLULITE SYMPTOMS

- Bumpy Skin
- Bumpy Looking Legs
- Cottage Cheese Textured Skin
- Orange Peel Textured Skin
