Thinking for two.

Parents-to-be are more assertive today about their hospital choices. They want to be certain about the quality of the hospital experience for both mother and child. The medical aspects are most critical, but comfort, friendliness, family involvement, and privacy are also important. So families check things out for themselves. It's not just the doctor's choice anymore. That's why hospitals are talking about their differences. And the differences at Grace are significant. Grace is a teaching hospital. And that means patients receive more attention from more professionals. It also means that patients see improved procedures introduced sooner. Grace is a leader in the prenatal, neonatal and high risk pregnancy specialties, but normal deliveries get lots of special attention, too.

A wonderful private birthing suite for families seeking an alternative to the more traditional delivery room program is available at Grace. Private rooms are also available. And at Grace, mother and infant are cared for together under a long established maternal bonding program. Families are encouraged to tour the Grace maternity section before making a hospital decision. And parents-to-be can use the Grace physicians referral program to find a conveniently located Grace affiliated physician.

Thinking for two means planning ahead. We think Grace should be a future mother's first thought. A member of The Detroit Medical Center. Affiliated with the School of Medicine, Wayne State University. (313) 966-3100.

Grace Hospital
 Serving the north and northwest metro areas.
