Twin sisters Donna Limkytoks (left) and Debbie Limkytoks are checking out Farmington Hills models and Debbie's fashions. Donna is in Vanity Fair black satin bikini with gold lame insert. Debbie is in Vanity Fair ivory satin gown with copper insert.

Out on a LIM

Donna is ready for a night on the town in Blue Magic, a blue sequin dress with attached chiffon scarf that drapes around the body.

Looking at these photos of the Lim sisters, you may find the following hard to believe.

But somebody once told the twins they just didn't have what it takes to be models.

Shedding a tear, told the ca[illegible] ...ver of the Lim Asian American ...ed even ...ir time ...

Donna (left) and Debbie are ready for the beach in jumpsuits designed to be worn over swimsuits. Donna's is made of pink mesh, while Debbie's [illegible] jumpsuit has back and leg slits.

Get a job
So you've got your hard-earned degree, a nice resume and a firm handshake: Now what? Here are some tips on how to find that first job. **2**

Rocking with Dad
"Turn that thing down!" is how most dads respond to loud rock music. But Dad and the Boys turn the sound up to rock out with their own brand of heavy Detroit metal. **3**

One step beyond
Are you the type who believes that the only things that go bump in the night are the dancers at the local disco? Oakland University parapsychologist Richard Brooks is out to change your mind. **5**

Waiting on Oscar
It's a long way from Hines Park to Hollywood, but Robert Skotak has made the trip in high style. The former Westland resident has been nominated for an Academy Award for his special effects work on "Aliens." **6**

George Baier (left) and Jim (JJ) Johnson take an irreverent look at the Detroit area every weekday morning on WLLZ-FM in Farmington Hills.

JJ & crew laugh their way to top

By Loraine McClish
staff writer

WHILE THE ROCK records are spinning over WLLZ-FM in Farmington Hills, JJ and the Morning Crew bounce back and forth a half dozen ideas on what they'll talk about within the next 60 seconds.

"About the farthest we ever look ahead is turning the script to the next page," said Jim Johnson, the JJ of the crew.

"When we think too far ahead it's always an exercise in frustration. When we've prepared ahead, we stumble. For us it is has to be fresh in the head."

The spontaneity between Johnson and the other member of the "crew," George Baier, has been giving Detroit an irreverent look at the world for the past 10 years. It also has made them the longest-running two-man team in Detroit radio history.
