Birthday Cakes Are Special

By JOYCE TOTTEN

Make each family occasion or birthday special—put a different design on each cake you bake.

Your family will look forward to these occasions when you have a beautiful cake baked. Imagination plus a cake decorator set equals many beautiful cakes. Cake decorator sets that can be purchased at most variety stores are simple to use and come with complete instructions.

After reading the instructions, practice on a piece of waxed paper or on the bottom of cake pans. When you feel you have mastered several designs, try decorating a cake.

A CAKE DECORATOR set has many other uses. If you have one, make it work for you. It works real well for making canapés that have cream cheese as a base. Molded salads, cookies, petit fours and deviled eggs take on a new look when the decorator has been used.

Some people put a thin glaze over each layer of the cake before decorating. This glaze holds the crumbs in place and makes the job of frosting much easier.

You may wish to use a toothpick to draw a design on the frosted cake. Then use the decorator to follow your design.

When you add a topping to a cake, it helps keep the cake moist and is more appealing to the eye.

RED VELVET CAKE

- 1/2 c. shortening
- 1 1/2 c. sugar
- 2 beaten eggs
- 2 oz. red food coloring
- 3 T. Nestle's Quick cocoa
- 1 t. salt
- 1 t. vanilla
- 2 1/2 c. sifted cake flour, sifted 3 times
- 1 c. buttermilk
- 1 t. soda dissolved in 1 T. vinegar

Cream shortening and sugar; add beaten eggs. Make paste of coloring and cocoa. Add to creamed mixture. Add salt, vanilla and flour alternately with buttermilk. Fold in vinegar and soda mixture. Bake at 350 degrees until cake tests done.

WHITE FLUFFY FROSTING

- 5 T. flour
- 1 c. milk
- 1/2 c. butter
- 1/2 c. shortening
- 1 c. sugar
- 2 t. vanilla

Cook flour and milk until thick; cool to lukewarm. Cream butter, shortening, sugar and vanilla; add to flour and milk paste and beat at high speed until fluffy. Tint light green if desired. Frost cake.

DECORATING FROSTING

- 2 c. shortening (Crisco)
- 4 c. sifted powdered sugar
- 1 unbeaten egg white
- 1/2 t. vanilla
- pinch of salt

Cream shortening, add 1/2 of the sugar and mix until smooth. Add egg white, rest of sugar, salt and vanilla. This frosting can be charged to suit the taste when you learn the right consistency for decorating.

Panels Liven Fence

Narrow panels of colored glass or plastic make interesting relief when incorporated into a tall, solid-board fence, such as is needed to enclose a swimming pool.

The glass is easy to include when slipped into the grooves of 1 1/2-inch tongue - and - groove boards. Two boards are needed for each panel of glass, one on either side. Tongues are trimmed off.

To provide adequate strength for a tall, wood-glass fence, set Douglas fir 1x4s edge out, between each group of boards and glass to act as studs. Also use 1x3-inch bracing at both top and bottom rails and another through the center of the fence. These braces also will form nailing plates for the tongue-and-groove 1x4s.

It's easiest to stain the 1x4s before building the fence—and be sure to stain grooves, too. The remainder of the fence can be stained after construction has been completed.
