# WRITE IT AND REAP!

3. **Avoid abbreviations.** Don't make a potential customer work too hard. Although you may be tempted to cut down on the cost of your ad by using abbreviations, surveys indicate that many people don't understand such abbreviations as EIE I (each kitchen) or WSW (white side wash lines) and won't take the time to figure them out. A confused reader is a disinterested reader. Get the most for your money and use complete words.

5. **Run on consecutive days.** Your ad will not get results if people don't see it! Therefore, it is important to set up a consistent and consecutive ad schedule with your telephone salesperson or outside sales representative.
