# Since when is it a crime to turn 18?

Of course turning 18 isn't a crime at all. However, turning 18 without registering with Selective Service is.

That's why we need your help. We need parents to tell their sons to register with Selective Service within a month of turning 18. And we need teachers, friends, employers and others who can influence these young men to reinforce the message.

Why? Because, for one reason, it's the law. But in addition to risking prosecution by not registering, your son or young friend is disqualifying himself from eligibility for federal student loans, federal employment and job training programs.

America's future security depends upon today's young men registering with Selective Service on time. Having a complete registration list saves our country six vital weeks in mobilizing its manpower should Congress ever declare a national emergency.

All of today's 18-year-olds and all of tomorrow's 18-year-olds must be informed about the registration requirement.

You can help. Ask a young man you know if he is registered.

**Selective Service Registration.**  
**It's Quick. It's Easy. And it's the Law.**

A public service message of this publication and Selective Service System.
