Youth hostels to host Florida sailing trips

Sailing trips in Florida are again being offered to sun-seeking adventurers during the winter months by the American Youth Hostels.

American Youth Hostels is a non-profit group that promotes out-of-door recreation at a low cost. Sailing the Gulf Coast islands gives participants a chance to explore many islands among which are Sanibel, Captiva, Punta Blanca, Boca Grande and many others, with time to sun, shell and beachcomb.

This trip is designed for do-it-yourself out-of-door people 18 and older. Should you not already be a

sailor, this trip offers the fun of learning the art of sail cruising with expert informal instruction.

Nature abounds in this area. Pelicans and osprey soaring overhead, dolphins jumping, and sea turtles are some of the life present in the area. Many of the sandy islands are dotted with palm trees and flowering cactus.

Trips are planned during February, March and April. More information is available from Michigan American Youth Hostels.

What students think

AP — What's on a college student's mind right now? Probably other people or a task at hand rather than sex, a new study suggests.

When researchers sampled the immediate thoughts of 39 college students and five older people through the day, they found that more than 27 percent of the thoughts concerned other people while only 1 percent concerned sex.

This may be surprising given the large density of undergraduate students in this sample," said Eric Klingler, psychology professor at the University of Minnesota at Morris.

But the results probably hold true for college students in general.

Klingler said after describing the research recently at the annual meeting of the American Psychological Association.

Men and women in the study were beepers for an average of four days each day in a different week. They recorded what they were thinking about at the time the beeper went off, which happened 10 to 12 times a day.

Problem-solving appeared in 6 percent, self-evaluation in 3 percent, telling oneself what to do in 2 percent, and sex and anger in 1 percent apiece.
