Cable news show seeks journalists

The change of year seems to automatically bring about change for individuals. Billie Thompson and Ellen Donnan have produced Tri Outlook News for over a half. As producers, they are heralded through a weekly parade of either writing and coordinating a script or producing the show itself. Both have encouraged their production to present the news effectively as well as creatively.

Both have decided to pass the hat to other residents who would like to perfect their skills as they provide a community service through the news. Billie and Ellen have set such a wonderful standard for the community. We thank them.

Therefore, if you enjoy writing or would like to investigate what is going on in the community, call me. Lark Reid, Zenobia Lala, Mary Calverton and Todd Whitman will be available to build the momentum of the show.

Indeed, you are feeling a need for a change, consider trying television or radio. We hope that it will change your life.

Remember, free workshops for studio, camera and radio are available every month. Call 474-7266.

Thinking for two.

Parents-to-be are more assertive today about their hospital choices. They want to be certain about the quality of the hospital experience for both mother and child. The medical aspects are most critical, but comfort, friendliness, family involvement, and privacy are also important. So families check things out for themselves. It's not just the doctor's choice anymore. That's why hospitals are talking about their differences. And the differences at Grace are significant. Grace is a teaching hospital.

And that means patients receive more attention from more professionals. It also means that patients see improved procedures introduced sooner.

Grace is a leader in the prenatal, neonatal and high risk pregnancy specialties, but normal deliveries get lots of special attention, too.

A wonderful private birthing suite for families seeking an alternative to the more traditional delivery room program is available at Grace. Private rooms are also available. And at Grace, mother and infant are cared for together under a long established maternal bonding program.

Families are encouraged to tour the Grace maternity section before making a hospital decision. And parents-to-be can use the Grace physicians referral program to find a conveniently located Grace affiliated physician.

Thinking for two means planning ahead. We think Grace should be a future mother's first thought. A member of The Detroit Medical Center. Affiliated with the School of Medicine, Wayne State University. (313) 966-3100.
