Chamberlain, REALTORS is proud of their 40 years of real estate commitment to the many communities serviced. It took years of building, improving, supervising, teaching, training, growth and innovation.

In the very beginning, our working philosophy was to understand that the practice of real estate depends on the needs of the people, and that "SERVICE - OUR ONLY PRODUCT" was rendered before profit.

From our first one-room office in 1948, to twelve community-oriented offices today, we are proud of our commitment and accomplishments.

In 1954, Chamberlain, REALTORS became the first real estate company in the State of Michigan to open a branch real estate office in the Birmingham-Bloomfield area. The Birmingham-Bloomfield area was chosen because of the expanding growth within the community.

A new, state-of-the-art office was constructed in 1956 by B.F. "Bud" Chamberlain and his brother Calvin, located at 975 South Hunter Boulevard. Designed with the most innovative appointments money could buy, this office facility set an example within the real estate industry.

Today, this same commitment and dedication exists. Our newly remodeled Birmingham Office offers the latest in design and decor. Another new state-of-the-art West Bloomfield Office, located at 7115 Orchard Lake Road offers similar design components.

What does all this really provide? We know that effective real estate marketing is MORE than a Company name and innovative building. When you seek real estate expertise, you are selecting a service to be rendered, not the highest appraisal of your home.

Chamberlain, REALTORS is dedicated to providing intensified sales and service assistance. Our top associates live within the communities they service.

Like the age-old saying, "HOME IS WHERE THE HEART IS," we believe homes make up communities when people take a deep interest and feel deep pride in its functions and activities. We are proud of our sales associates and their active roles in community service groups, schools, legislative programs and cultural activities...all play important roles in community development.

As we enter our 40th year, we reach it not by chance, but by years of professional service and personal commitment by our staff.

YOUR HOME is one of your most valuable possessions. When it comes to buying or selling, let our service, dedication, experience, proven sales techniques and caring...help you!
