THIS YEAR'S REQUIRED READING FOR 1,000,000 COLLEGE GRADUATES

Welcome to Real World 101.

You'd be surprised how many college students go from highlighting textbooks to highlighting the classifieds. The fact is, a staggering number of graduates are unable to secure a career in their field of study.

That's why there's a nationwide program for college students called Cooperative Education. It allows students to alternate studies at the college of their choice with paid, practical work experience in the career of their choice. So Co-op Education students graduate with more than a degree. They have practical knowledge. And a competitive advantage in a crowded job market.

If you're a student, you should seriously consider the Co-op Education Program.

Because after years of studying in college, the last thing you need is another reading assignment.

Co-op Education

You earn a future when you earn a degree.
