Franklin's New Swim Club Membership Gives You Plenty Of Strokes.

Whether you're into laps or lounging, Franklin's new Swim Club membership special* is sure to win you over.

For one low fee, you can enjoy Franklin's new outdoor pool all summer long. Soak up the sun in our comfortable chaise lounges.

Sip drinks or enjoy a snack from our outdoor bar and grill. Or cool off with a few refreshing laps around the pool.

You'll also enjoy use of our tennis and racquetball facilities, dining at Sneakers restaurant and bar, free hair dryers, toiletries and towels...all the extras that make Franklin the Midwest's finest workout facility.

If this sounds like the stroke of luck you've been waiting for, stop by at Northwestern Highway, just west of Franklin Road in Southfield, or call us at 352-8000. But hurry—memberships are limited.

*Enjoy Swim Club Memberships from May 31 through September 5.

HOW LONG WILL THE INJECTION LAST?
When treating arthritis, physicians often inject a painful joint with a steroid (cortisone derived) medication. It would be comforting to you, as a patient, to know how long the doctor estimates this procedure is likely to provide relief.
There are two reasons why your physician hesitates to answer such a question.
One reason stems from the fact that each individual breaks down steroids at a different rate. If you break down the medication rapidly, it is unlikely to be helpful for a long period. Conversely, if you are a slow metabolizer, a small dose may remain in the joint for weeks to months.
Secondly, the doctor cannot always gauge the intensity of inflammation in the joint; the steroid may be used up immediately in an acutely involved knee or shoulder joint. It is not possible to inject more medication, since the effort will be to allow more steroid to escape from the joint and be dispersed throughout the body.
Do not be disappointed if the relief that the injection brings is short lived; a brief respite from pain is better than none. A repeat injection, at a later time may meet different joint conditions, permitting the steroid to act as a long term medication.
