The Enterprise.

Believing that the time has come

when the citizens of Farmington, and

the surrounding country, desire to know

more of the events constantly taking

place in the community, we will in the

future publish a paper, the object of

which is to give the citizens of this

community a more complete knowledge

of the events of the day, and to

show the progress of the community

and the progress of the world.

It is our hope that this paper

will be of service to the community

and that it will be of service to the

world.
