

Ski brights

A ski jacket that absorbs the ultraviolet rays and returns the heat to your body for extra warmth is offered by Descente in its solar alpha style for men and women. Both are \$400. Hers in silver and hot pink; his in a darker silver tone and lime green. Superb detailing. Pockets galore. Below, the latest in ski equipment features boots that grip the leg tightly, rather than being attached to the ski itself, thus allowing for quick release. All at Don Thomas Sporthaus, 6600 Telegraph, Birmingham.
