

# Local cable TV can make difference

Are you on the way out the door to a meeting? How effective is this group?

A thought-provoking concept to reflect upon... Will your group go beyond "idea gathering" and progress into action? What concern or cause is your meeting trying to tackle? Please give serious consideration to addressing the opportunity through the community offering of cable television.

You have the "television power" as Douglas Holliday Sr., vice president of WTVS-Channel 55, said at the recent SEMTEC 10th anniversary celebration hosted by Lawrence Tech. Dr. Otto Feinstein of Wayne State University encourages us to exercise our media to tackle civic, cultural and scientific illiteracy.

A difference is made locally. Let us accomplish your community service goals. I will be honored to speak to your group to help you accomplish goals through using "telecommunication" options available to you through the cable television offering in our community.
