How Fit Is Your CLUB?

When you join some health clubs you're left on your own to figure out what kind of exercise you need. To them you're just a new member joining in on the health craze. But at **One On One** we treat fitness not as a fad, but as serious business.

When you join **One On One** you will be given a free complete fitness evaluation. Our exercise

physiologist tests new members for cardiovascular condition and endurance, muscular strength, body fat, even cholesterol level. And then, when we've figured out what shape you're in, we'll design a personal fitness program to meet your goals. We'll even work with your doctor if there are special medical concerns or restrictions.

One On One is committed to the finest in fitness for adults and children and our wide variety of programs and convenient hours make it easy to fit into your lifestyle. It's the best time you'll ever have getting in shape!
