From the Royal Family of Humidifiers  
**The Auto-Flo DUKE AUTOMATIC HUMIDIFIER**

The Auto-Flo Duke represents a break-through in humidification design, utilizing the newest aerospace materials known and employing the newest techniques in thermo-plastic injection molding. These materials cannot rust or corrode. They are virtually unbreakable and can withstand the strongest detergents and boiling temperatures, but most importantly, the combination of the design techniques and materials makes it possible for the average warm-air furnace to provide EIGHT gallons of humidity per day WITHOUT ELECTRICITY.
