Figure 1. The effect of the concentration of the *Agrobacterium* strain on the transformation efficiency of *Agrobacterium* strain 104. The concentration of the *Agrobacterium* strain 104 was varied from 10⁶ to 10⁹ cells/ml. The transformation efficiency was determined by the number of transformants per 10⁶ cells of the *Agrobacterium* strain 104. The data are the mean $\pm$ SD of three independent experiments.

TRAVERSE CITY
The Beach Condominium/Hotel
All Condominiums on the first
and second floors. One, two,
