

Woolzie

Hi-Tech Design Improves putting accuracy through better alignment

Introducing the Woolzie. The most accurate putter in the world. Help lower your score. You've already learned the importance of keeping your head over the line when you putt. Now, take that lesson a step further.

The Woolzie helps you line up putts by putting your head over the line, but behind the ball.

Putt as good as the pros. With Woolzie alignment, you know instantly when your eyes are over the line.

The putting head forms a prism that allows you to see

the ball, the cup and pin and the line all at once.

Consistent set-up and accurate alignment are automatic when the Woolzie's in hand.

Proper alignment. Touch. Consistency. It all comes together with the Woolzie.

Once you're confident you can get perfect set-up every time you putt, you're bound to save a few strokes and improve your score.

Gift suggestions for

(AP) — There are some gifts you can buy for the whole family, including yourself:

- **Indoor Birdwatching.** "Gone Birding" is a combination board-video game that will help develop bird identification skills for family members of all ages. Actress Jane Alexander narrates the video, which features British comedian-birdwatcher Bill Oddie and author Peter Alden, shown taking nature expeditions across North America. Uncaptioned shots of birds in their natural settings challenge players' bird knowledge, with a handicapping system for older, more experienced members of the family. The game is from Rupicola in a two-hour VHS tape (or Beta by special order) and costs about \$80.

- **U.S.A. Trivia.** What are Abraham Lincoln's hands doing in the famous statue of him in the Lincoln Memorial? And what mineral is mined 1,000 feet below the city of Detroit? These are sample posers from the "U.S.A. Trivia" game from the Games Gang, the makers of the top-selling

"Pictionary" game.

The company also is putting out a second edition of "Pictionary," along with a number of spinoffs, including an edition for kids and a portable version for parties. Prices range from about \$19 to \$35. (Answers to trivia questions: Lincoln is spelling his initials, "A" and "L" in sign language, and Detroit deep-mines salt.)

- **Sharp Colors.** Festive colors have come to, of all things, the disposable razor. Wilkinson Sword's "Colours" packages contain razors in white, yellow, blue, red, and green. Each comes with a reusable snap-on blade guard. The practical side of the bright colors is that family members can identify their own in the bathroom cabinet, or the individual user can keep track of which ones he's used before. Retail prices are 79 cents for five-packs and \$1.19 for 10-packs.

- **Little Big Horn.** Tiny speakers from Memorex can transform any personal radio-cassette player into a mini-stereo system. Called Color Mates, they come in bright colors and plug
