

Special treatment

Help a VCR survive with Holiday VCR Survival kit from GE. The kit contains a GE T-120 video tape with lifetime warranty, a non-abrasive wet system head cleaner that should be used periodically to clean dust and dirt particles from the heads and a dust cover to protect the VCR from dust and dirt. All three items are compatible with VHS videocassette recorder. Suggested price is \$19.95.

Private-label, gourmet-food items including mulled cider mix, jams and condiments are available.

For those looking for rare Christmas decorations, old-world, glass-blown ornaments and tree-light covers in the 19th-century tradition are available. Beeswax ornaments, tree toppers, Santas, paper products and other related items can be found in all three stores.

There are limited supplies of pottery, textiles, tinware and glassware

made at the village. Educational toys, crystal and ceramics are waiting to be discovered among the shelves of these specialty stores.

Shopping at the village's Great American Emporium, the Museum Store, or the Plaza Store is just one of many Christmas activities to be enjoyed when visiting either the museum or village, Dec. 2 through Jan. 1 (excluding Christmas Day).
